NEW TO THIS EDITION

- **Completely updated** – incorporates advances in research and practice over the last ten years
- **New material** on the controversy surrounding the possible positive effects of alcohol and cannabis use and increased risk of interpersonal violence
- **New research** on theories of addiction.

“Teesson and colleagues have succeeded in producing a very clear, readable, and up-to-date critical overview of the addictions literature. With a focus on current directions, latest empirical findings, and future research needs, the authors provide an insightful, practical, and comprehensive presentation of the world of addictions.”

- **Claire Hart**, University of Southampton, UK

The first edition of *Addictions* established itself as a valuable resource for students and professionals alike. This authoritative new edition builds on the success of the previous book and includes material on: the nature of addiction and who becomes addicted, health consequences of alcohol and other drug dependence and theories and causes of addiction.

Addictions will be essential reading for students, professionals and researchers seeking state of the art information about this rapidly growing field.

CONTENTS: The Nature of Addiction. Who Becomes Addicted? The Health Consequences of Alcohol and Other Drug Use and Dependence. Theories of Addiction: Causes and Maintenance of Addiction. Alcohol. Nicotine. Cannabis. Opioids. Psychostimulants: Cocaine, Amphetamines and Ecstasy. Addiction: Looking Ahead.

Series Editor: **Chris R. Brewin**

Clinical Psychology: A Modular Course was designed to overcome problems faced by the traditional textbook in conveying what psychological disorders are really like. All the books in the series, written by leading scholars and practitioners in the field, can be read as stand-alone texts, but they will also integrate with other modules to form a comprehensive resource in clinical psychology.

Childhood Disorders

Second Edition

Philip C. Kendall, Temple University, Pennsylvania, USA, and **Jonathan S. Comer**, Columbia University, New York, USA

“This Second Edition is just the kind of book that students of child psychopathology will crave – the text is compelling, succinct, accessible, and prescriptive... Highly recommended.” - **Stephen Hinshaw, UC Berkeley, USA**

In this revised edition of *Childhood Disorders*, Philip C. Kendall and Jonathan S. Comer present current information about the full range of psychological disorders that occur in childhood and discuss the major models that guide the thinking about each disorder. Specific criteria for diagnosis are presented alongside

the latest research findings to provide an overview of methods used for treating childhood disorders.

Depression

Second Edition

Constance Hammen, University of California, USA, and **Ed Watkins**, University of Exeter, UK

“Hammen and Watkins are to be congratulated on the breadth, depth and up-to-date information in this text... This

excellent updated second edition of a classic text will be a major resource to students, clinicians and researchers.” - **Professor Paul Gilbert,**

Kingsway Hospital, Derby, UK

Anxiety

Second Edition

S. Rachman, University of British Columbia, Canada

“[This book] synthesises a wealth of clinical and basic research data and highlights the key findings in the field. It is informative, clearly written and very easy to read. I

highly recommend this book as a starting point for psychology students or practitioners requiring a concise yet authoritative overview of this flourishing area of research and clinical practice.”

- **Melanie Marks, Behaviour Research and Therapy**

Schizophrenia

Max Birchwood, Early Intervention Service, Birmingham, UK, and **Chris Jackson**, University of Birmingham, UK

“This is a very worthwhile volume. It presents a thorough review of the disorders of behaviour and experience which lead to a diagnosis of schizophrenia... The volume is an ideal introduction to the vast research

literature on schizophrenia... I strongly recommend it.” - Professor David Hemsley, Institute of Psychiatry, London, UK

Pb: 978-0-86377-553-6: 2001: 176pp. £18.50
