International Perspectives on Forensic Mental Health Series

Series Editors: **Ronald Roesch** and **Stephen Hart**

The goal of this series is to improve the quality of health care services in forensic settings by providing a forum for discussing issues related to policy, administration, clinical practice, and research.

The series will cover topics such as mental health law; the organization and administration of forensic services for people with mental disorder; the development, implementation and evaluation of treatment programs for mental disorder in civil and criminal justice settings; the assessment and management of violence risk, including risk of sexual violence and family violence; and staff selection, training, and development in forensic systems.

Dangerous People

Policy, Prediction and Practice

Edited by **Bernadette McSherry**, Monash University, Victoria, Australia, and **Patrick Keyzer**, Bond University, Queensland, Australia

This edited collection explores the advantages and disadvantages of current management schemes for high-risk offenders, such as sex offenders, terrorists, offenders with serious mental illnesses, and juvenile offenders. It is written for scholars in the field, as well as policy-makers and mental health professionals. Chapters examine a myriad of relevant issues, such as the practical issues that have arisen following the implementation of preventive detention/supervision schemes, the issues relating to assessing the risk of future harm in the management of high-risk offenders, and different programs/sentencing options for high-risk offenders with mental illnesses.

CONTENTS: Part I: Parameters. *McSherry, Keyzer, 'Dangerous' People: An Overview. Sifris, An International Human Rights Perspective on Detention without Criminal Charge or Trial. Keyzer, What Are the Legitimate Parameters for the Preventive Detention of Serious Sex Offenders? Slobogin, Legal Limitations on the Scope of Preventive Detention.*

Part II: Policy. *La Fond, Sexual Offender Commitment Laws in the USA: The Inevitable Failure of Misusing Civil Commitment to Prevent Further Sex Crimes. Petrila, Sexually Violent Predator Laws: Do They Mark a Return to the Bad Old Days of Mental Health? Janus, Sexual Violence, Gender Politics and Outsider Jurisprudence: Lessons Learned from the American Experience in Prevention. Freckelton, The Preventive Detention of Insanity Acquites: A Case Study from Victoria. McSherry, The Preventive Detention of Suspected Terrorists: Better Safe Than Sorry? Part III: Prediction.* *Skeem, Peterson, Silver, Toward Research-informed Policy for High Risk Offenders with Severe Mental Illnesses. Johnstone, Empirical, Conceptual and Developmental Challenges Associated with Assessing Violence Risk in Youth. Cooke, Michie, Violence Risk Assessment: Challenging the Illusion*

of Certainty. **Part IV: Practice.** *Thomson*, The Role of Forensic Mental Health Services in Managing High Risk Offenders: Functioning or Failing? *Quinn, Crichton*, 'Case Managing High Risk Offenders with Mental Disorders in Scotland.' *Fyfe, Gailey*, The Scottish Approach to High Risk Offenders: Early Answers or Further Questions? *Darjee, Russell*, The Assessment and Sentencing of High Risk Offenders in Scotland: A Forensic Clinical Perspective. *Logan*, Managing High Risk Personality Disordered Offenders: Lessons Learned to Date. **Part V: Conclusion.** *McSherry, Keyzer*, 'Dangerous' People: The Road Ahead for Policy, Prediction and Practice.

Handbook of Violence Risk Assessment

Edited by **Randy K. Otto**, Florida Mental Health Institute, USA, and **Kevin S. Douglas**, Simon Fraser University, British Columbia, Canada

"This Handbook is the ultimate 'tool box' for all clinicians, researchers and trainees involved in violence risk assessment. Each instrument's review is authoritative, balanced, and comprehensive, yet concise. It is likely to be this topic's best sourcebook for the next decade." - **Thomas Grisso**, University of Massachusetts Medical School, USA

This *Handbook* comprised of original chapters serves as a resource for clinicians and researchers alike. Two introductory chapters cover general issues in violence risk assessment, while the remainder of the book offers a comprehensive discussion of specific risk assessment measures.

Psychiatry in Law / Law in Psychiatry

Second Edition

Ralph Slovenko, Wayne State University,
Michigan, USA

Psychiatry in Law/Law in Psychiatry, Second Edition, is a sweeping, up-to-date examination of the infiltration of psychiatry into law and the growing intervention of law into psychiatry. Unmatched in

breadth and coverage, and thoroughly updated from the first edition, this comprehensive text and reference is an essential resource for psychiatry residents, law students, and practitioners alike.

SELECTED CONTENTS: Psychiatry in Law. Part I: Expert Testimony. Part II: Evidentiary Issues. Part III: Criminal Cases. Part IV: Sexual Deviation. Part V: Civil Cases. **Law in Psychiatry.** Part I: Hospitalization of the Mentally Ill. Part II: Psychiatric Malpractice.

2009: 618pp.

New Edition!

Offenders, Deviants or Patients? Explorations in Clinical Criminology

Fourth Edition

Herschel Prins, Leicester and Loughborough
University, UK

Offenders, Deviants or Patients? provides a practical approach to understanding both the social context and treatment of mentally disordered offenders. Taking into account the current public concern, often heightened

by media sensationalism, it addresses issues such as sex offending, homicide and other acts of serious bodily harm.

This fourth edition comes after extensive new research by academics and professionals in the field and reflects recent changes in law, policy and practice, including:

- new sex offending legislation
- proposals to amend homicide legislation
- a new mental health act.

Using new case examples, Herschel Prins examines the relationship between mental disorders and crime and looks at the ways in which it should be dealt with by the mental health care and criminal justice systems.

CONTENTS: Some Autobiographical Reminiscences. Non Responsibility/Responsibility and Partial Responsibility. By Diverse Routes. 'Thick Coming Fancies'. A Failure to Register. Grievous and Other Bodily Harms. Thou Shall Not Commit Murder. Sex – Lawful and Unlawful. No Smoke Without Fire. 'The Malady of Not Marking'. Envoi.

Treating Personality Disorder

Creating Robust Services for People with Complex Mental Health Needs

Edited by **Naomi Murphy**, and **Des McVey**,
both at Fens Unit, HMP Whitemoor, UK

"Treating Personality Disorder is a welcome addition to the literature in this complex field... It deserves to be read carefully by frontline staff and policy makers alike."

- **Eddie Kane**, University of Nottingham, UK

This book considers personality disorders and how they are treated within the institutional context of prisons and hospitals and offers practical guidance on assessment, formulation and integrated treatment planning.

Treating Personality Disorder offers contributions from professionals in psychiatry, nursing and psychology as well as prison officers and service managers. Areas of discussion include: delivering integrated treatment to people with personality disorders, issues and challenges for the clinical professional and the role of the psychiatrist in treating personality disorder.

Treating Personality Disorder will provide a timely and valuable guide for all professionals involved in the treatment and management of serious personality disorders within an institutional framework.

CONTENTS: *McVey, Murphy*, Introduction. *Murphy, McVey*, The Difficulties that Staff Experience in Treating Individuals with Personality Disorder. *Evans, Watson*, Assessing Personality Disorder within a Formulation Framework. *Saradjian, Murphy, McVey*, Delivering Integrated Treatment to People with Personality Disorder. *Murphy, McVey*, Fundamental Treatment Strategies for Optimising Interventions with People with Personality Disorder. *McVey, Saradjian*, Organisational Challenges to Providing Services for Personality Disordered People. *Murphy*, Effective Transdisciplinary Teamworking. *McVey*, The Role of the Nurse in Treating People with Personality Disorder. *Jones*, The Role of the Occupational Therapist in Treating People with Personality Disorder. *Fox*, The Role of the Prison Officer (Dangerous and Severe Personality Disorder in the Prison System). *Hawes*, The Role of the Psychiatrist in Treating Personality Disorder. *Ramsden*, Beyond Therapy – The Wider Role of the Psychologist in Treating Personality Disorder. *Sneath*, Issues and Challenges for the Clinical Professional.

Protecting Children from Violence

Evidence-Based Interventions

Edited by **James Michael Lampinen**, University of Arkansas, USA, and **Kathy Sexton-Radek**, Elmhurst College, Illinois, USA

Providing an evidence-based understanding of the causes and consequences of violence against children, experts in the field examine the best practices used to help protect children from violence. Various types of violence are reviewed including physical and sexual

abuse, (cyber-)bullying, human trafficking, online predators, abductions, and war.

Illegal Leisure Revisited

Changing Patterns of Alcohol and Drug Use in Adolescents and Young Adults

Judith Aldridge, University of Manchester, UK,
Fiona Measham, Lancaster University, UK,
and **Howard Parker**, and **Lisa Williams**,
both at University of Manchester, UK

"The first edition of Illegal Leisure rightly achieved wide-acclaim... This second edition continues the story. Illegal Leisure Revisited will be much welcomed by students, researchers and lecturers interested in the most important questions about drug use in contemporary Britain." - **Robert MacDonald**, Teesside University, UK

This book updates the progress into adulthood of 14-year-olds who were tracked for the first edition, using qualitative interviews and self-report surveys. The new edition shows them moving into the world of work, relationships and parenthood.

Scientific Foundations of Clinical Assessment

Stephen N. Haynes, University of Hawaii, USA, **Greg Smith**, University of Kentucky, USA, and **John Hunsley**, University of Ottawa, Canada

Scientific Foundations of Clinical Assessment is a user-friendly overview of the most important science-based principles and concepts of clinical assessment. It provides readers with a science-based framework for interpreting assessment research and making good assessment decisions, such as selecting the best instruments and measures, and interpreting the obtained assessment data. Written in a direct and highly readable fashion, this text is one every professional and graduate student needs.

CONTENTS: Introduction to the Scientific Foundations of Clinical Assessment. Reliability. Validity. Applying Psychometric Evidence to Clinical Decisions. Clinical Utility and Decision-making. Understanding Patterns Among Measures Through Factor Analysis. The Conditional Nature of Psychometric Evidence. How to Evaluate Commonly Used Statistical Methods in Clinical Assessment Research. Using Multiple Sources of Data in Clinical Assessment.

Therapeutic Feedback with the MMPI-2

A Positive Psychology Approach

Richard W. Levak, in private practice, California, USA, **Liza Siegel**, Mark Burnett Productions, California, USA, **David S. Nichols**, researcher and author, Oregon, USA, with **Ronald A. Stolberg**, in private practice, California, USA

Therapeutic Feedback with the MMPI-2 provides the clinician with empirically-based, practical information

about how to convey the abundance of information in the MMPI-2 profile in a way that is collaborative, empathic, hopeful, and facilitates a therapeutic alliance. Discussion centers around ten scales and 31 common codetypes, addressing complaints, thoughts, emotions, traits and behaviors, therapists' notes, feedback statements, treatment and self-help suggestions, and possible therapeutic pitfalls for each scale.

Forensic Psychology Concepts, Debates and Practice Second Edition

Edited by **Joanna R. Adler**, and **Jacqueline M. Gray**, both at Middlesex University, UK

This book brings together academics, practitioners and experts in the field of forensic psychology to demonstrate the scope of the discipline and push its parameters. Its

aim is to go beyond introductory texts to challenge perceptions, raise questions for research, and pose problems for practice. The editors hope to inspire and stimulate debate about how forensic psychology can aid the practice of justice.
